Oil & Gas
Consultancy Services & Technical Training Providers

Enhancing business through knowledge

About us

At Petroconsult Energy, our services are built around the areas of specialisation of our consulting and associate partners, particularly in the Upstream and Midstream petroleum exploration and development, economics, reservoir & field developments, production processing, mergers and acquisitions and E&P project & asset management.

Our consulting partners have vast international knowledge and experience in these core areas of the energy industry having worked for considerable length of time therein.

Their experience and expertise spans a variety of countries and cultures on a global basis, with up to date knowledge based on new technology, current and international practices within the oil and gas industry.

Client Categories

Our client base is divided into the following categories:

- ⇒ *International Oil & Gas companies (IOC)*
- ⇒ *National State oil companies (NOC)*
- ⇒ *Oil & Gas Service Companies*
- ⇒ *Government Agencies & Ministries*

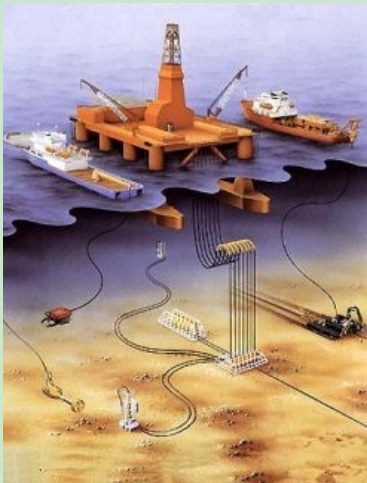

Our programmes can be open/mixed or bespoke/closed. This is dependent on client preference and confidentiality matters.

We have provided our specialized services to the below National and International oil and gas companies to name a few:

Total – Yemen, Nigeria, Oman; DragonOil – UAE; BPMigas – Indonesia; Agip KCO – Kazakhstan; CMH/INP – Mozambique; GE Petrol – Equatorial Guinea; Sonangol – Angola; Mellitah - Libya; Lukoil Russia, NOC – Libya; Sonatrach – Algeria; KazMunaiGas – Kazakhstan; TaqTaq – Turkey; Ministry of Oil & National Planning – Iraq; Pertamina – Malaysia; Chevron; Repsol YPF- Spain; Anadarko – Algeria; Korean National Oil Company ; Addax Petroleum, Ghana; Exxon; BG Group (E&P); Gulfsands; CMOC – Kazakhstan; CNPC Kazakhstan

Please contact us to discuss your training and consulting needs as they may be.

Service Mode of Operation

Training Venue:

We offer trainings at our London and Houston Training Centres and on In-House basis at the client venue as the case may be.

- ⇒ *In-House Programmes:* Such programmes are conducted at clients' premises where group is more than 8 persons
- ⇒ *Open Programmes:* These are programmes held at our training centre in London, UK and Houston, USA

Consulting Venue:

The location for our consultancy project works is divided up between client location and our London & Houston offices.

In-house Basis:

Our in-house services are provided at the client's chosen site and facilities. The client is in control of execution parameters.

Please contact us to discuss your Government Advisory needs as they may be.

Subject Matter and Content

- ⇒ We are acclaimed for customizing and designing training programs to suit the specific requirements of our client companies and Countries.
- ⇒ We frequently design the course content to meet the specific requested need or particular area of interest of the client.
- ⇒ Where this is not explicit, and the course is closed (i.e. single company or country attendance), we always design the subject matter to suit the attending clients. Therefore, our training content does not follow a one-glove-fits-all pattern.
- ⇒ We have done so for the likes of NOCs and IOCs alike such as Ghana, Ministry of Oil (Iraq), Repsol, Sonangol, Dragon Oil, GE Petrol Equatorial Guinea, CNPC Turkmenistan.

Please contact us to discuss for your needs as they may be.
